

WE GOT YOU COVERED

WITH AN EVER-EXPANDING LINE OF REVOLUTIONARY SPORTS PRODUCTS

LET US SHOW YOU OUR LINE OF

PlastiCap™ Fence Toppers & Fence Guards

Baseball & Softball Products

Aer-Flo entered the sports cover market in 2004 with its now quadruple-patented Wind Weighted® Baseball Tarps. These easily installed, self-ballasted, windproof rain covers for the pitcher's mound and bases have simplified a once tedious job. Thousands are now in use at all levels of baseball: Little League, High School, College, Minor and Major Leagues.

Since then, Aer-Flo has introduced an ever-expanding line of revolutionary sports products for baseball, softball, football, soccer, track & field, golf and tennis. Every new Aer-Flo product shares the same unique beginning: Company staff listens to coaches, athletic directors, groundskeepers, facility directors, and teaching professionals. Every Aer-Flo product addresses a need or a shortcoming in existing products as expressed by those who know best.
